

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1-14. (canceled)

15. (new) A collapsible bar comprising first and second support members, a surface element, and means for releasably latching the surface element to the first and second support members.

16. (new) A collapsible bar as claimed in claim 15, wherein the releasable latching means includes an elongate channel on each support member and two skirt-portions on the surface element, the skirt-portions being receivable in the channels as a close fit.

17. (new) A collapsible bar as claimed in claim 16, wherein each channel is open-ended and wherein the releasable latching means also includes a latch element which can slidably receive the open-end edge of the channel.

18. (new) A collapsible bar as claimed in claim 17, wherein the latch element is formed on a free-edge of the skirt-portion.

19. (new) A collapsible bar as claimed in claim 16, wherein each support member is in the form of a frame having, in use, front

and back uprights and a plurality of horizontal cross-members interconnecting the front and back uprights.

20. (new) A collapsible bar as claimed in claim 15, wherein the surface element is selectable depending on requirement from a range of surface elements having different functions.

21. (new) A collapsible bar as claimed in claim 15, wherein the surface element is selectively positionable on the first and second support members, is repositionable on the first and second support members and is interchangeable with another surface element.

22. (new) A collapsible bar as claimed in claim 15, further comprising a bar-top element, which is supportable by the first and second support members, and means for releasably retaining the bar-top element on the first and second support members.

23. (new) A collapsible bar as claimed in claim 22, wherein the bar-top element is hingably jointed to enable folding.

24. (new) A collapsible bar as claimed in claim 15, further comprising a screen wall for screening the front and sides of the in use bar from patrons.

25. (new) A collapsible bar as claimed in claim 24, wherein the

screen wall is hingably jointed to enable folding.

26. (new) A collapsible bar as claimed in claim 24, wherein the screen wall is freestanding.

27. (new) A collapsible bar as claimed in claim 24, wherein the screen wall can be releasably latched to the support members via the releasable latching means.
